

Announcement

The **Rowena Morse Mentoring Program**

for female junior scientists
and artists of the
Thuringia's universities

**Mentees
wanted**

Program
10/2019–10/2020

The Rowena Morse Mentoring Program (RMMP) of Thuringia's universities is a funding program for young female scientists and artists at universities in the Free State of Thuringia. The programme is named after Rowena Morse, the first woman who successfully completed her doctorate degree in Thuringia in 1904. The mentoring program provides interdisciplinary support for female doctoral students in the final phase of their doctorates and for female postdoctoral students in the orientation

phase of their individual careers. In addition to the placement of a mentor, specific workshops for further qualification are offered. Within the framework of peer mentoring, the mentees network with (young) scientists from other Thuringian universities and they are accompanied in groups by experienced professors from the Thuringian universities. The program runs for a total of 12 months and begins at the end of October/beginning of November 2019 of each calendar year.

The following documents must be enclosed with your application:

- letter of recommendation from the supervisor
- a short letter of motivation
- curriculum vitae in tabular form

Application deadline

May to August 2019

Address for application

The selection procedure takes place at the respective university. Please note the university's internal deadlines and contact the Equal Opportunities Office at your university if you have any questions. Members of the Friedrich Schiller University Jena, please send your application to Dr. Bianka Dettmer of the Vice President for Young Academics and Equal Opportunities.
